

EXECUTIVE BIOGRAPHIES.

Comprised of engineers, academics, thought leaders and entrepreneurial spirits, the combined skill set of the RelianceCM™ team is as diverse as its clientele. Here are just a few key members of the RelianceCM lineup:

SCOTT R. SCHROEDER – PRESIDENT

Scott has more than 30 years of leadership and management experience and is responsible for the day-to-day operations of RelianceCM, as well as the communication and implementation of the company's vision, mission and overall strategic plan.

Prior to RelianceCM, Scott served as vice president of manufacturing at Roseburg Forest Products, responsible for all lumber, plywood, veneer, engineered wood, particleboard, melamine, pre-finish and shelving operations. Before his time at Roseburg Forest Products, Scott held various vice president roles at Stimson Lumber Company and their subsidiary, Miller Redwood, with an emphasis in managing timber and land resources, production facilities and manufacturing plants and mills.

Scott has also served 11 years on the College of Engineering Advisory Board at Oregon State University and is a member of the Oregon Entrepreneurs Network. He holds a BS in Forest Engineering from Oregon State University.

DAVID SCHROEDER – BUSINESS DEVELOPMENT

As business development manager, David is tasked with overseeing the overall growth plan for RelianceCM and developing and executing strategies to expand the RelianceCM customer base. Beyond identifying potential new markets and opportunities, David works closely with the sales, engineering and operations teams at RelianceCM to be sure that the company is on target with its goals. Previous to his role with RelianceCM, David served as marketing and sales associate for Traeger Timer located in Corvallis.

David graduated from Oregon State University with a degree in Marketing Management. During his time at OSU, David worked at RelianceCM over summers and vacations, working nearly every job in the shop. He started on the shop floor doing hand assembly, operating production and inspection equipment, performing test and rework as well as inventory control operations.

PATTY BAKER – RELATIONSHIP MANAGER

Patty brings her project management expertise and strategic thinking to help deliver custom solutions to customers, both on schedule and on budget. Patty has more than a decade of experience in relationship management and is highly skilled in identifying each customer's specific needs and helping to develop an overall product strategy for each new project. She specializes in program coordination and event management, skills that she applies to RelianceCM's marketing outreach and client support efforts.

Prior to her role at RelianceCM, Patty worked with Automation Tooling Systems and The Corvallis Clinic. Patty holds a BS in Merchandising Management from Oregon State University.

MATTHEW BIEREK – CONTROLLER

Matthew has been with RelianceCM for nine years, serving as controller, managing all aspects of the company's finances. From preparing financial statements and budget reports to forecasts and cost analysis reports, Matthew is an integral part of the RelianceCM management team, ensuring the company remains on target in its plans for growth.

Matthew has more than 30 years of experience in electronics and manufacturing covering a broad cross-section of industry disciplines. Matthew worked his way through high school as a technician, repairing and selling consumer electronics equipment, until entering the U.S. Air Force. During his time in the Air Force, Matthew served as a microwave radio relay equipment technician and supervisor. Upon returning to the private sector, Matthew went on to work in the forest products industry. As the wood products industry declined, Matthew returned to his roots in electronics, managing materials and production of personal computers, bar code reader systems and electronic security systems. He has a degree in Business Administration from Kennedy-Western University and holds the designations of CPIM (APICS Certified Production & Inventory Management), U.S. Customs Service Broker Licensee and CFP (Certified Financial Planner).

RON VANORDEN – DIRECTOR OF OPERATIONS

Ron has more than 25 years of hands-on experience in tech-sector manufacturing and support services. As director of operations for RelianceCM, Ron has spent the past seven years using his expertise in product development and improvement, lean manufacturing, and production planning, as well as inventory control and supply chain management to take RelianceCM's operations to the next level.

His background includes heading entrepreneurial startups and working with international manufacturers. Prior to joining the company, Ron served as a private consultant to RelianceCM as they attained their ISO9001 certification and also spent 14 years as director or product service at MRL Industries. Before his tenure at MRL, Ron served as production manager at Precision Flow Devices and also started Integrated Technical Services, Inc., a service, consulting and equipment manufacturing company supporting semiconductor facilities.

Ron has earned international recognition for his contributions to high-purity gas management solutions and industrial thermal processing systems. Ron holds a degree in Electronics from the Oregon Institute of Technology, is a member of the Institute of Electrical & Electronics Engineers (IEEE) and is also an expert in ISO and OHSAS programs.
